## **LEAK CREDIT GUIDELINES**

Residential customers may be eligible for a credit on wastewater charges on water lost through a system leak or a damaged pool, subject to certain conditions. Customers may receive a credit no more than once annually and are required to submit documentation of repairs. The credit, if awarded, is based on no more than two billing periods and calculated from the difference between the subject period and 150% of the use for the same period during the previous year. Non-residential users are generally not eligible for credit, unless the leak is catastrophic resulting in usage exceeding 400% of use during the same period the previous year. The Water System has established a committee to evaluate requests.
